

SMARTCASH™

Cash Management System

Introducing **SMARTCASH™**, a cash management solution developed independently by PT Murni Solusindo Nusantara to accommodate a thorough cash management, from deposit and withdrawal transactions in the front-office to comprehensive reporting for management in the back-office.

Being a highly scalable solution, **SMARTCASH™** can be customized to adapt with client's specific business process and requirements, thus it is highly suitable for implementation across business sectors, including banks, financial-related industries, retails, CITs, etc.

» **SMARTCASH™** Applications

SMARTCASH™ is seamlessly integrated with teller cash recycler and cash deposit machines from Glory Global Solutions. Being highly flexible, **SMARTCASH™** allows you to choose the best machine suits your business requirements.

Glory TCR RBG-100 teller recycler machine is an automatic teller assisted machine which features:

- Deposit
- Withdrawal

» Why SMARTCASH™ ?

- ✔ **Streamlined Business Process**
With unmatched performance through complete automatic transaction functionalities, SMARTCASH™ streamlines business process in the front-office.
- ✔ **Enhanced Security**
SMARTCASH™ provides high security cash storage with international certification for construction and security of equipment to ensure a safe overnight storage.
- ✔ **Minimized Risk**
SMARTCASH™ is equipped with comprehensive counterfeit detector developed with Japan technology that has been proven accurate across business sectors for 100 years. The counterfeit detection sensors are the first protection in the front-office to eliminate potential risk of unidentified counterfeit notes.
- ✔ **Enhanced Staff Productivity**
The efficiency and effectivity of SMARTCASH™ implementation enables bank to serve more customers without the need to hire more staff.
- ✔ **Improved Customer Satisfaction**
Implemented as a self-service solution, SMARTCASH™ enables faster queue clearance for customers to provide a seamless customer experience.
- ✔ **Easier Monitoring of Cash Flow**
For easier monitoring of cash flow and business operation, SMARTCASH™ also features:
 1. Comprehensive reporting of cash stock and transaction activities
 2. Notification/alert system to notify machine status and amount of denominations on hardware

» How SMARTCASH™ benefits you?

✓ For Customers

1. Streamlined queues and transaction procedures
2. Improved convenience for deposit and withdrawal transactions
3. Efficient time management with swift automatic processes
4. Peace of mind with improved accuracy and security

✓ For Staff

1. Reduced workload with automatic functions and organized transaction data
2. Decreased human error and data discrepancy with less manual cash-handling
3. Focused customer service for higher customer satisfaction

✓ For Organizations (Banks, Financial-Related Industries, and Retails)

1. Better service area without queue congestion
2. Optimized staff utilization for better customer service
3. Enhanced staff productivity to generate more revenue
4. Accurate results, thus eliminating data discrepancy and repetitive procedures
5. Lower risks due to money exposure and reduced potential loss due to human error

✓ For CITs

1. More efficient and effective pick-up and delivery process
2. Streamlined process with real time-saving counting and sorting
3. More business opportunities through potential integration with existing bank or retail applications
