

Business Process Automation with Software Robots

Do you want to:

- ✔ automate repetitive processes?
- ✔ reduce labour time spent on routine tasks?
- ✔ minimize time-consuming jobs?
- ✔ speed up high volume tasks processing?
- ✔ have non-stop and 24/7 workforce?
- ✔ minimize errors with less human interferences?

Our intelligent software robot are ready to help.

Robotic Process Automation (RPA) with Software Robots.

Easy-to-use Solution

To help you get started easily, the solution comes with a wide selection of job templates: no programming skill needed!

Flexible and Customizable

The software robots can automate any tasks based on your business needs, programmable on the web-based control center.

Accurate and Reliable

Supports up to 24/7 operations based on the schedule and tasks created for the software robots.

Cloud-based Control Center and Data Storage

The software robots are easy to be managed and monitored via the control center, as all of their tasks and data are stored in the cloud.

Real-time Monitoring from Anywhere

Monitor all of the work status and progress— from anywhere, at anytime—through mobile app.

Independent Bots You Can Trust.

The software robots are also designed with smart self-maintenance features, such as:

Automatic self-recovery in case of error

Self-aware to maintain best performance

Effective load balance among the bots with continuous monitoring of each other

RPA is a technological breakthrough for any industries as they automate the entire business workflows efficiently.

BANKING

- Application form processing
- Credit card processing
- Mortgage processing
- KYC processing
- Compliance checking
- Asset management

HEALTHCARE

- Appointments scheduling
- Medical billing and payment processing
- Insurance claims management
- Discharge instructions
- Internal and external audit

TELECOMMUNICATION

- Document verification
- On-time billing system
- Customer onboarding/ offboarding
- Data entry
- Data format change

RETAIL

- Inventory management
- Invoice processing
- Payment processing
- Logistics & supply chain management
- Sales analytics

MANUFACTURING

- Invoice processing
- Bill of materials (BOM)
- Inventory management
- Generating receipts
- Tracking deliveries
- Order fulfillment

INSURANCE

- Claims registration & processing
- Underwriting process
- Regulatory compliance
- Form registration
- Policy administration

*Sample of use case on various business industries.

Selected Testimonials

Discover how our RPA empower business and its people to be more productive and efficient.

Banking

"The RPA has helped our SME customers reduce repetitive tasks and improve overall business efficiency."

Education

"We saved 55 man-hours/month in data entry, representing 50% increase in transaction processing speed; Almost 100% accuracy transaction input and almost 100% drop internal customer complaints."

International Medical University

Manufacturing

"It took 45 minutes to send out the monthly Statement of Accounts, as compared to 5 days when done manually."
